Playing Cards

First of all, thanks for downloading one of my graphic files! I appreciate this and I would love to help you. Underneath this intro text I will explain how to use/work with the downloaded item. Have fun, good luck and enjoy your day!

1. *Open the file(s) in Adobe Illustrator CC or higher*

2. *All layers have easy to understand names, and are layered into folders.).*

3. *Hide/unhide any color/text layers needed, and change where needed. You can also change colours by changing the vector layers, or changing the Color Overlays on certain folders.*

4. *Now it's ready to get printed! They will work as a normale corner or rounded corner card. Of course, you may also use them digitally!*

5. ***If you don't have Adobe Illustrator/Photoshop CC, you can always use the included separated .EPS & .PNG card files. Enjoy!***

Don't forget to rate and enjoy this file! Thanks!
